

Patent Attorney

Physics or Engineering (mechanical, electrical, mechatronics)

We are looking for a qualified or part-qualified patent attorney with physics or engineering expertise to join our team in Wellington, New Zealand.

You will have the opportunity to advise a wide range of local and international clients across different technologies. Our growing client base includes individual inventors, start-ups, exporters, research institutes, and everything in between. You will be able to work autonomously and be responsible for:

- Patent drafting
- Patentability, validity, and freedom to operate advice
- Patent prosecution
- IP strategy
- Portfolio management

Skills & experience

- A degree in physics or engineering (mechanical, electrical or mechatronics)
- 2+ years experience in the field of intellectual property
- Sound background in drafting, prosecution and opinion work
- Excellent communication and people skills
- Fluent English

Interested? Send your CV and a cover letter to: mail@catalystip.co.nz
